## INTRODUCTION 2.0

It wasn't until Ryan was almost 14 he was given the opportunity to enter the Oceania Junior Cup by chance, in 2021, he had never even competed in any motorsport and had only just started with 4

Days of practice at a local race track, as some one unknown who never came through the normal flat track upbringing, it's just natural ability that Ryan has to mix it at the front, just another kid

That turns up out of the blue and makes his presence felt due to his given speed and determination to succeed in a brutal sport
